

## LIBRARIANS REPORT 2022

Once again Covid has impacted the societies' activities, including those of the library. Consequently, my activities this year have been restricted to logging-in new journal parts and the processing of books, both purchased and those kindly gifted by members. I have to thank Mark Mitchel for several generous book donations during the year.

The installation of a new air conditioning system, and more significantly from the libraries point of view, the removal of the old system, will result in some changes in layout of shelving in the library. But that is a work in progress and probably won't be completed for some months yet.
